## Electronics & Telecommunication Department

### THREE DAYS WORKSHOP ON "PROTEUS SIMULATION AND PCB DESIGNING" 22/02/2024 TO 24/02/2024

Three Days Workshop On "PROTEUS SIMULATION AND PCB DESIGNING" Was Organized By Electronics & Telecommunication Department DURING 22/02/2024 TO 24/02/2024.

#### Objective:

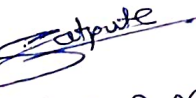

1. To Enhance Students Knowledge Interms Of PCB Design And Manufacturing.
2. To Understood the PROTEUS SIMULATION

#### Schedule

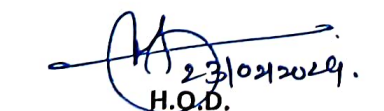

Sr.No	Date	Schedule
Day 1	22/02/2024	<ol style="list-style-type: none"><li>1. Short Inauguration</li><li>2. Distributing the component and Project to each students.</li><li>3. Implementation of the project using bread-board</li><li>4. Result verification</li></ol>
Day 2	23/02/2024	<ol style="list-style-type: none"><li>1. Implementation using Proteus</li><li>2. PCB Print</li></ol>
Day 3	24/02/2024	<ol style="list-style-type: none"><li>1. Soldering</li><li>2. Etching</li><li>3. Project Final</li><li>4. Certificate Distribution</li></ol>

Subject:- To give Permission to Conduct Seminar/Workshop.

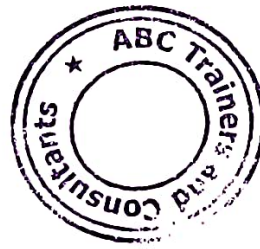

Respected sir/ Madam

I undersigned Ms. Mohini Lakal, in my capacity as the Business Manager at ABC CADD Centre in Latur, respectfully request your permission to organize a seminar on the topic of "EMERGING TRENDS" at your esteemed college.

ABC CADD Centre has been actively engaged in CADD and IT training for the past decade, serving the education and corporate sectors across Maharashtra. Our extensive experience in providing quality academic and corporate training in various domains such as Civil, Mechanical, Electrical, and Computer underscores our commitment to knowledge dissemination.

In light of our expertise and dedication to educational advancement, I kindly appeal to you to grant us the privilege of conducting this seminar within the premises of your college. Thank you for considering our request.

  
Your's Sincerely,  
Mohini Lakal  
Business Manager  
ABC Trainings Latur

**Bhakti Harke**  
Robotics Lead

Hello Future Innovators! ✨

Google Developer Student Club of Sandipani Technical Campus Faculty of Engineering - Latur proudly present a info session on \*Introduction to Cloud Computing\* to help you dive into the cutting-edge world of discover Design & cloud Development. 📺

📺 Event Details:

📺 Date: December 10, 2023 (Sunday)

📺 Time: 7:00 pm - 8:00PM

📺 Register here: <https://gdsc.community.dev/events/details/developer-student-clubs-stemeis-sandipani-technical-campus-faculty-of-engineering-latur-presents-introduction-to-cloud-computing/>

📺 Venue: Virtually (Workshop)

✅ This workshop is open for ALL COLLEGE STUDENTS from EVERY DEPARTMENT! 📺

✅ Remember to RSVP Now

✅ Join our WhatsApp group: <https://chat.whatsapp.com/ENmbJTuphhBH2hmuJVFa5w>

## Department of Mechanical Engineering

(Academic Year 2023-24)

### Seminar Report on Robotics

**SEMINAR TITLE: ROBOTICS.**

**Date:** 29/02/2024

**Venue:** Sandipani Technical Campus, Faculty of engineering, Kolpa, Latur. Hall No: 1318

**Speaker:** Mr. Kailas Kanade  
(engineering.)

#### 1. Introduction

Robotics is a multidisciplinary field that integrates engineering, computer science, and artificial intelligence to design, construct, and operate robots. Robots are automated machines capable of performing tasks that are either too complex, repetitive, or hazardous for humans. Robotics has evolved significantly since its inception, impacting industries like manufacturing, healthcare, agriculture, and space exploration.

#### 2. Historical Overview

The history of robotics dates back to ancient times with automata designed for entertainment. In modern times:

1954: The first programmable robot, Unimate, was created by George Devol.

1980s: Robotics began its proliferation into industries, particularly automotive manufacturing.

21st Century: Advanced robotics powered by AI, machine learning, and IoT began revolutionizing sectors such as healthcare and autonomous transportation.

#### 3. Key Components of Robotics

Robotics systems typically consist of the following components:

**Sensors:** Collect data from the environment (e.g., cameras, touch sensors, infrared).

**Actuators:** Convert energy into motion (e.g., motors, hydraulic systems).

**Controllers:** Process input data and send instructions to actuators.

**Power Supply:** Provides energy to the robot, typically via batteries or direct electricity.

**Software:** Implements algorithms for navigation, object recognition, and task execution.

#### 4. Types of Robots

Robots can be classified based on their application and design:

1. **Industrial Robots:** Used in manufacturing for tasks like welding, assembly, and packaging.

2. **Service Robots:** Assist in domestic chores, healthcare, and customer service.

3. **Humanoid Robots:** Designed to mimic human appearance and behavior.

4. **Autonomous Robots:** Operate independently using AI and sensors (e.g., drones, self-driving cars).

5. **Medical Robots:** Facilitate surgeries, diagnostics, and rehabilitation.

(Academic Year 2023-24)

### EXPERT LECTURE

ON

**Title of the Lecture: Innovative Approaches to Thermodynamics and Heat Transfer**

**Date:** 15/02/2024

**Venue:** Sandipani Technical Campus, Faculty of engineering, Kolpa, Latur. Hall No: 1318

**Speaker:** Prof. Vedpathak S.B.

(Asst. Professor, dept. of Mechanical engineering.)

#### **Introduction**

The expert lecture focused on recent advancements in the field of thermodynamics and heat transfer, addressing both fundamental principles and their modern applications. Attendees included students, faculty members, and industry professionals keen on exploring cutting-edge research and technological developments.

#### **Key Topics Discussed:**

##### **1. Modern Heat Exchanger Designs**

- a. Development of compact and high-efficiency heat exchangers.
- b. Applications in renewable energy systems and HVAC (Heating, Ventilation, and Air Conditioning).

##### **2. Thermodynamics in Renewable Energy Systems**

- a. Role of thermodynamics in optimizing solar thermal and geothermal systems.
- b. Efficiency improvements in heat engines used for power generation.

#### **Learning Outcomes**

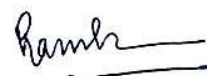

##### **Participants gained:**

- i. Comprehensive knowledge of advanced technologies and materials in heat transfer.
- ii. Insights into the practical application of thermodynamic principles in modern engineering systems.
- iii. Awareness of emerging research opportunities in the field.

#### **Conclusion:**

The lecture effectively bridged the gap between theoretical understanding and practical applications of thermodynamics and heat transfer. Participants expressed appreciation for the speaker's detailed insights and illustrative examples.

### Seminar Report

on

### EMISSION NORMS IN INDIA

**Date:** 12/12/2023

**Venue:** Sandipani Technical Campus, Faculty of engineering, Kolpa, Latur. Hall No: 1318

**Speaker:** Mr. HOLKAR L.K.

(Asst. Workshop Superintendent, MSRTC, AUSA)

#### INTRODUCTION

India's emission norms are a regulatory framework aimed at controlling pollutants emitted by vehicles to improve air quality and public health. These norms are primarily based on the Bharat Stage (BS) standards, modeled after the European Emission Standards.

Key Points About Emission Norms in India:

#### 1. Bharat Stage (BS) Emission Standards:

BS-I to BS-IV: Implemented between 2000 and 2017, progressively reducing permissible levels of pollutants like carbon monoxide (CO), hydrocarbons (HC), nitrogen oxides (NO<sub>x</sub>), and particulate matter (PM).

BS-VI (2020): Skipped BS-V and directly transitioned to BS-VI, enforcing stricter standards on emissions and requiring the use of cleaner fuels (10 ppm sulfur content). Key features include:  
Introduction of particulate filters and selective catalytic reduction (SCR) for diesel vehicles.  
Real Driving Emissions (RDE) testing for more accurate data on pollutants under real-world conditions.  
Reduction of NO<sub>x</sub> by 68% for diesel vehicles and PM by 80%.

#### 2. Upcoming Bharat Stage VII Norms:

Expected around 2027-2030, BS-VII norms are set to align with Euro 7 standards, focusing on:  
Real-time emissions monitoring via advanced onboard diagnostics (OBD).  
Regulation of non-exhaust emissions like tire and brake wear particles.  
Stricter limits on CO<sub>2</sub> and other greenhouse gases.

#### 3. Corporate Average Fuel Efficiency (CAFE) Norms:

Aimed at reducing average fuel consumption and CO<sub>2</sub> emissions for vehicles. CAFE Phase III norms introduced in 2024 are integrated with the broader emission strategy to curb environmental impacts.

#### 4. Special Focus on Electric and Hybrid Vehicles:

EVs and hybrid vehicles are promoted under schemes like FAME II to reduce dependency on fossil fuels and cut vehicular emissions. These vehicles are exempt or lightly regulated under emission norms due to their low emissions.

Holkar L.K. Golkar

**Faculty of Engineering & Polytechnic**

AN ISO 9001:2015 CERTIFIED INSTITUTE

Nanded Road, Kolpa, Latur ☎:02382 263545 / 46 / 47

#### 5. State-Specific Norms and Policies:

Cities with high pollution levels, such as Delhi, have implemented additional restrictions, including bans on older diesel vehicles and promoting public transportation.

These measures collectively aim to balance the growth of the automotive sector with environmental sustainability.

## EVENT REPORT "Women's Day celebration"

**Inauguration Ceremony: 12 March 2024 at 10:00 AM**

**Introduction Speech: Prof. Kulkarni S.B.**

**Vote of Thanks : Pathan Sana**

**TOTAL STUDENTS PARTICIPATED : 90**

The purpose of Women's Day Calibration is to felicitate our institute women's in a friendly atmosphere and to encourage their creative impulses to boost their confidence. It is the day where women's celebrate being part of the world.

This program is organized by Computer Engineering Students Association in the College Function hall at 2PM. The program started with lamp lightening and inaugural speech by, Prof. Kulkarni S.B mam. Vote of thanks given by student Pathan Sana.

## EVENT REPORT

### "An Interaction on Carrier Awareness By Carrier Roots"

**Inauguration Ceremony: 13 Feb 2024 at 02:00 PM**

**Introduction Speech: Prof. Panchakshari M.C.**

**Expert : Mr. Mehtre G.S.**

**Vote of Thanks : Prof. Kamble M.B**

**TOTAL STUDENTS PARTICIPATED : 128**

Sandiapani Technical Campus Faculty of Engineering and Polytechnic, Kolpa, Latur Department of CSE are Successfully Organised An Interaction on Carrier Awareness By Carrier Roots Awareness Program atmosphere and to encourage their creative impulses to boost their student confidence. To make prepare about competitive examination held National and International level like GATE/GRE/UPSC/MPSC etc.

Agenda: To acquire an presence of mind towards Competitive examinations and GRE preparation as well as CAT MBA preparation in foreign country apart from of your degree or academic performance. As well as how to improve communication and better open to take all benefits of opportunities running in the world.

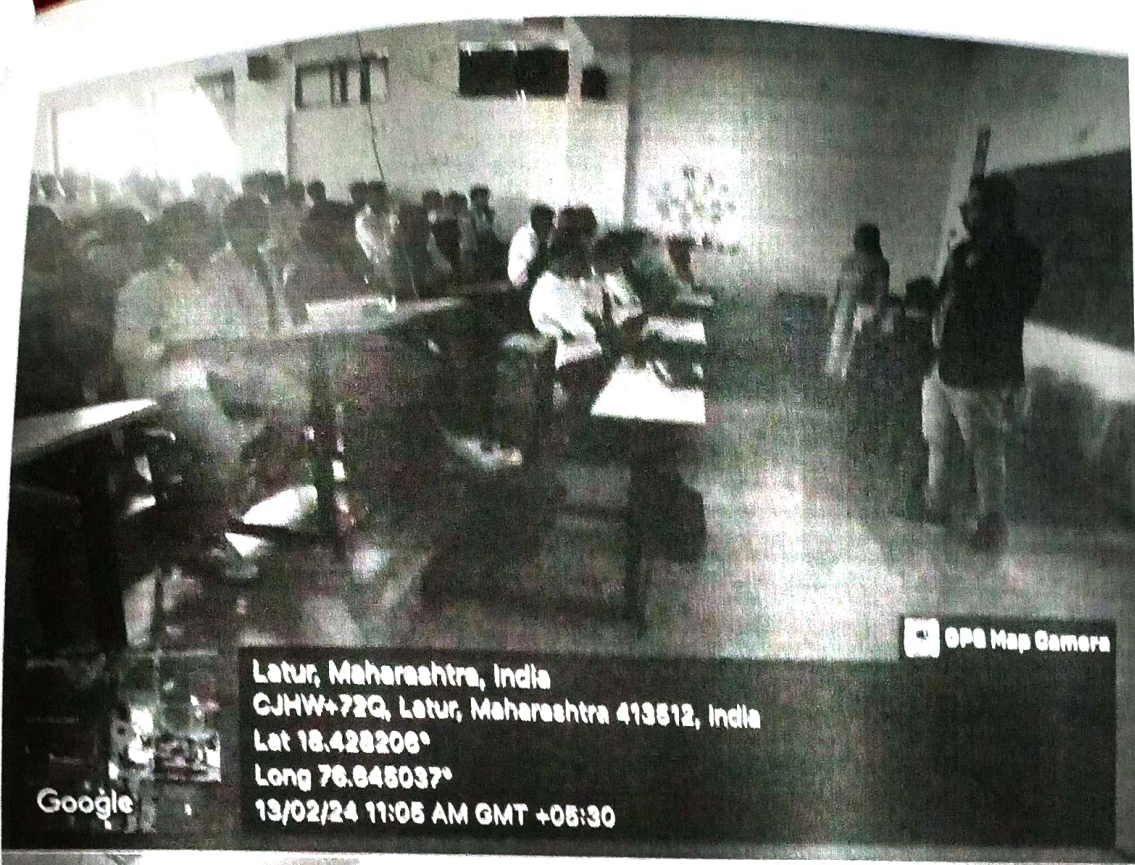

Target Audience: B.Tech All Branch

Key Learning from: An Interaction on Carrier Awareness By Carrier Roots

- Time limitation for solving problem.
- Key skills required by the industry?

**ACTIVITY REPORT**  
**OF**  
**EXPERT LECTURE**  
**ON**  
**“QUANTITY SURVEYING”**

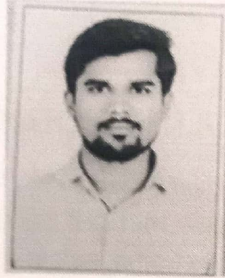

**SANDIPANI TECHNICAL CAMPUS, KOLPA, LATUR**

**CIVIL ENGINEERING DEPARTMENT**

**(ACADEMIC YEAR 2023-24)**

❖ **BANNER/POSTER :**

**Expert Lecture**  
on  
**"Quantity Surveying "**  
**Mr. Sawant Sitaram**  
**Junior Engineer**  
**PWD**

Date-07/02/2024

Time:12PM

At step class room third floor

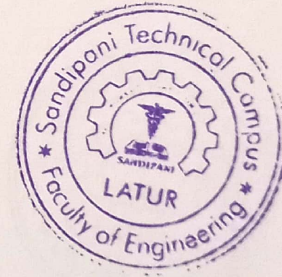

**Prof: Chopane A V**  
Faculty co-ordinator

**Dr. Agrawal A S**  
HOD

**Department of Civil Engineering**

❖ **SPEAKER PROFILE: -**

Name: Mr. Sawant Sitaram  
Designation: Junior Engineer  
Department: Public Work Department  
Job Location: Hingoli

❖ **OBJECTIVE:**

1. To aware about Importance of Quantity Surveying.
2. To realize & familiar importance of Quantity Surveying.
3. To help for know about role of engineer in Quantity Surveying.

❖ **STUDENT BENEFIT:**

1. To aware about Quantity Surveying.
2. To realize & familiar importance of Quantity Surveying.
3. To aware about calculation of Quantity in Quantity Surveying.

❖ **SEMINAR DETAILS :**

Expert Lecture on “Quantity Surveying” was organized for civil department students. For this session Mr. Savant Sitaram was invited as speaker. He guided the students about Quantity Surveying and how to calculate different quantities. More than 30 students have participated in this talk.

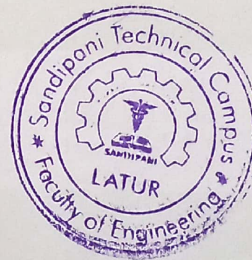

❖ **STUDENTS PARTICIPATED:**

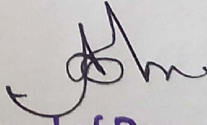

All civil branch Students-25

❖ **EVENT CO-ORDINATOR:**

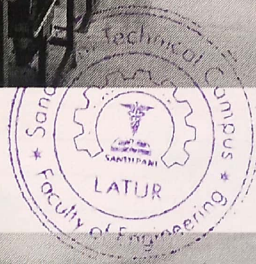

Prof. Chopane A V.

Prof. Shinde Ajay M.

  
**Head of Department**  
Dept of Civil Engg.  
Sandipani Technical Campus  
Faculty of Engineering  
Latur.

# REPORT

EXPERT LECTURE  
ON  
**CONSTRUCTION CHEMICALS**

Mr. Anil Joshi

SP Concare Pvt. Ltd, Sangli

Dated:-12/02/2024

**Civil Engineering Department**

**Sandipani Technical Campus, Faculty of Engineering,  
Latur**

**Objective:**

1. To acquire knowledge of Construction chemical construction
2. To realize & familiar with Chemical content of different admixture.
3. To understand the utilization of chemical admixture in waterproofing.

**STUDENT BENEFIT:**

1. Students were understood the types of Construction Chemicals.
2. Students were understood the Chemical composition of admixtures.
3. Students were familiarized with the water proofing process.

**Experience:**

It was good experience for the students familiarized with Construction Chemicals in used in construction. Students understand the process of water proofing and utilization of different types of construction chemicals. Students are thankful to the Mr. Anil Joshi Sir and department to make such a great experience of the Learning regarding Construction Chemicals.

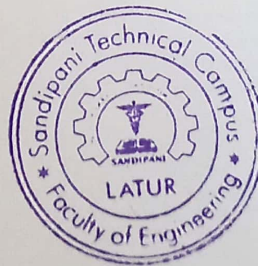

**Students Participated:**

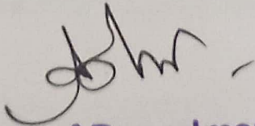

S.E., T.E., B.E - 67 Students

**Date of Event:- 12/02/2024**
